* please provide last 3 yrs address history

The below needs to be read to all applicants:

"When processing your application we will search the files of a credit reference agency. This search will be shown in any subsequent searches made in connection with future applications by you. Multiple searches may have an adverse effect on your credit profile. If you have indicated you are linked financially with another person (for example a spouse) you confirm you have permission to disclose their information. Your loan application will be assessed with reference to all linked records."

I can confirm that the above has been read to the client/s
